**30.1.17**

To whom it may concern.

#### AT8037 - PRODUCT INFORMATION UPDATE

The AT8037 downlight range is labelled non dimmable on the packaging & on the product itself, however tests have been conducted using the Atom AT9302 LED dimmer & found the product to be compatible with this dimmer.

Tests proved it to dim down to 20% light capacity & our website has been amended to reflect this dimming compatibility

If you have any questions regarding this matter please don't hesitate to contact myself or one of our friendly sales staff.

Kind Regards,

Justin Myers
