MINIMALIST AND MODERN DESIGN

Designed and engineered to evoke the ethos of minimalism and modern design, the beautiful and sweeping lines of the Flume ceiling fan's impressive 60" blade span adds understated elegance to your space.

RELIABLE AC MOTOR TECHNOLOGY

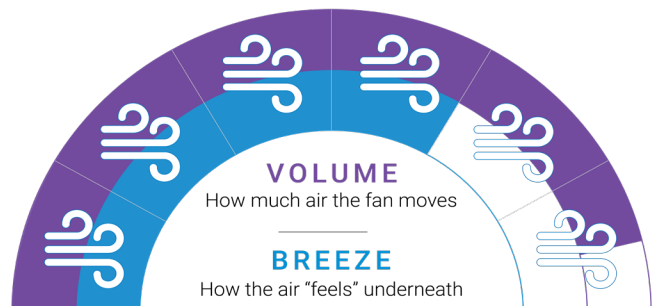

Driven by an energy-efficient and reliable AC motor, the unique ventilation and aluminium motor casing ensures cooler operation for added longevity.

AERODYNAMIC POLYMER BLADES

The elegantly crafted polymer (ABS) blades sweep from the motor housing to form graceful curves, perfectly complementing modern and contemporary decors.

ADVANCED THERMAL DESIGN

The new and improved thermal architecture of the Flume's internal motor utilises a ventilated aluminium design for optimal heat dissipation. This means the Flume delivers higher torque for less power.
